And What If I Were So Confident In My Ability To Deliver, That I'd Give You A \$20,000.00-In-365-Days Guarantee... When You Respond By Wednesday - January 20, 2010 at 11:59pm

If you listened in on the training seminar and are ready to take action now so you get all the "Fast Action Bonuses", you may [**Click Here**](#) to bypass the information below and immediately get to the "365-Day Trial Form" (If you did NOT participate on the training seminar, please do NOT skip ahead).

Dear Fellow Entrepreneur,

Let me start by giving you two promises.

By the time you finish reading this report, you'll have specific usable 1-2-3 strategies that you can apply, and see results in your bank account virtually overnight.

You'll also have one specific strategy that you can use exactly as I describe it to you.

I guarantee it's something you've never heard of before and I also guarantee that in 37 days or less, you can use it to put money in the bank that's not flowing there.

Meaning new dollars!

And once you've got the money flowing, it will continue to come in for you month after month after month.

Why You Should Listen To What I Have To Say...

- ❑ I actually own a home-based business (at getmoldsolutions.com) where I average \$7,000.00 to \$10,000 a month, selling "real" products and services to "real" people on a daily basis. So everything we're about to discuss is based on reality, NOT theory. And rest assured, if I can make this kind of money with my little "mold" project, I'm the most qualified person on the planet to show you how to make tons of money with your own home-based business... even if you're just getting started.
- ❑ I'll back up every word I say with an overwhelming amount of PROOF. In addition to seeing the actual bank statements and checks that verify my income, you're going to hear how I went from almost losing my life in a deadly Bering Sea accident, to now having an automated business that pays me for doing what I love.
- ❑ Not only will I guarantee the specific number of dollars that will appear in YOUR bank account, in a specific period of time, as a result of using this system... I'll back this guarantee by doing something no one else has EVER done. **I'll let you take it... For a 365-Day Trial!**

My name is Kevin Thompson, and for as long as I can remember, I've had the entrepreneurial bug, and the dream of owning a successful business. But up until a few years ago, I lost money with every attempt I made.

Truth is, it seemed like I failed at every attempt I made. It got so bad that I actually lost sleep at night, wondering how I was going to pay my bills.

Here's what was even more frustrating: on those few occasions when I was "lucky enough" to make some pretty good money... it wouldn't last.

Has that ever happened to you?

It's frustrating, isn't it.

But it gets worse, much worse... because, I invested over 80 thousand dollars in my first business venture, and for the first year, I lost money every time I stepped foot out the door.

I would've been better off sitting home on the couch.

At least I wouldn't have had to work so hard, and I sure as heck wouldn't have lost all that money.

After awhile I got so frustrated, I was almost ready to give up. I was actually going to shut the business down and resign myself to getting a job.

But that's when an unusual thing happened, a single event that literally changed my life in business, and led to the discovery of an "Automatic Income System" that literally puts money in the bank... with virtually no effort on your part. And now I've proven that this system will work for anyone, no matter your education, income or previous business experience.

Skeptical? I don't blame you... if you had told me a few years ago I'd be able to make money automatically, **I'd have called you a big, fat liar, right to your face.**

So let me start by giving you a little background, because rest assured, life was not always a bed of roses.

When My Father Died of Cancer, My Dream Of Attending College Came To A Screeching Halt

When I was in the 10th grade, I was already making plans to go to college, but when my father passed away, and my mom became the sole income earner for our family I realized that that college was no longer an option. So... I joined the Army right out of high school.

While it was a good experience, I quickly discovered that it wouldn't get me where I wanted to go in life.

So I completed my 4-year commitment and returned home to Washington.

Within my first week home, I was talking with my best friend Scott, discussing my dream of owning a business, and how I could best come up with the money I'd need to get it started.

He tells me, "Well Kevin, if you want to make a lot of money, you need to go up to Alaska, cause those fisherman make big bucks and they don't work that much. They only work a few months out of the year".

Now, let me ask you. As soon as you heard the words Alaska Fisherman, you got this picture in your mind, didn't you?

And I'll bet it wasn't pretty.

If you've ever seen that movie, The Perfect Storm or those Discovery Channel shows called The Most Dangerous Job and The Deadliest Catch, you know exactly what I'm talking about because those shows and that movie are a very good depiction of what it's like to work as an Alaska Fisherman.

I Spent The Next 7 Years Of My Life, Wondering If I'd Live Through Each Passing Day

It was a rough life out in the middle of the Bering Sea, dealing with cold, wet, miserable weather and working

insane hours. We'd work anywhere from 24-36 hours. Then we'd sleep for 6 hours and get up and do it again.

We'd maintain this schedule for weeks and months at a time depending on how long it took us to fill up the fishing boat with our catch.

After a few years I became really disenchanted with the whole idea and got tired of putting my life on the line for a paycheck.

It got to the point where I felt that the best thing about going to Alaska, was coming home.

I actually detested the thought of going back on that damn fishing boat.

And Then... It Happened!

I can remember the story of my last fishing trip like it was yesterday.

It was the winter of '95 and we were in one heck of a storm. It was the kind of thing you only see in the movies.

□
Fishing in Alaska's life-threatening Bering Sea.

On this particular night I was working the deck and my job was to bring the catch on boat.

And the truth is, I was scared... really scared!

But my way of dealing with my fears was to NEVER look out at the horizon because I didn't want to see the big picture.

I'd just concentrate on my job, which was getting the catch on the boat. I'd never look at the horizon in a storm like this, cause that was just too scary for me.

Besides, the skipper would let me know if I was in any real danger.

All of a sudden...

I hear the skipper's thundering voice over the intercom system, and he yells...

"Kevin, Hit The Deck!"

Before I could even react, I was buried beneath a wall of water that hurled me all the way across the boat, face first, into the railing on the other side.

And when the water finally subsided, my first thought was, "Thank God I'm still on the boat!".

A lot of damage was done to my body.

My front teeth were gone.

In fact, to this day I still have significant facial scarring from the accident.

But I had to count my blessings.

Because there's one thing I know...

If that wave would've thrown me just a few inches higher, it would've tossed me right over the railing of the boat, into the freezing waters of the Bering Sea, and there's no way the Skipper would've got that boat turned around in time to save me.

I would've died right then and there.

But looking back, seeing all that's happened in my life since that day... all that I've been able to accomplish... all the other people I've been able to help... I realize that God didn't want me to die that night.

But I wasn't about to risk my life again. I finished that trip, and ended my career as an Alaska Fisherman.

It Was Time To Make Some Changes, But When My Wife Said I Didn't Have A College Education And Could Never Be Successful Running A Business Of My Own...

I was shocked!

After getting back home from my last trip to Alaska, I told my wife of my plans to get out of the fishing industry and start a business of my own.

I'd saved up a fair amount of money and it was now time to realize my life-long dream of starting my own business.

I couldn't believe her response.

She says, "Kevin, you don't have a college education, you don't have any business experience. What in the heck makes you think that you have what it takes to run a business?"

You just need to keep fishing in Alaska".

She then went on to say, "If you're insistent on going through with this crazy scheme, I can't stand behind you".

To make a long story short, she filed for divorce and left me.

So as you can imagine, getting my first business off the ground (which was a cleaning and restoration company) was a pretty rocky start, and within a year I was failing miserably.

I can remember thinking to myself, "Wow, you're wife was right. You're just a miserable failure. You don't have what it takes to run a successful business".

□
Me and my brand new cleaning system.
I invested \$80,000.00 to start my first business.

In fact, I was working my tail off, yet I was losing money on a daily basis.

And to make matters worse, I'd spent over \$80,000 just to open the doors to my business. Now it was gone and I hadn't made a cent.

I spent all that money getting my business started... and by the end of the first year in business, I was almost penniless. I felt like a complete failure.

It was a really, really tough time in my life.

But about that time, a friend introduced me to a consultant that had already helped him turn his own business around.

He told me, "Kevin you need to hire this guy Joe, and use his services because he can help you turn your business around, just like he did for me. I guarantee he can help you too".

Even though I knew how well my friend was doing in business, and I trusted his advice, I didn't have a clue how I'd afford to pay a consultant.

I Pulled Out My Wallet To Look Inside, And Only Found A Couple Bucks

But...

Thank God, I did have a credit card. I remember thinking to myself, "If I can just use this card to get some professional help, I'd turn this business around and make the money back before the next statement even hit

my mailbox.

And that's exactly what happened!

I got Joe's help and did exactly what he told me.

And sure enough, it started working.

Within a short time I became one of the most successful cleaning and restoration companies in Washington State and I began operating on a by-referral-only basis. I was finally making the kind of money I'd always hoped for.

Only problem was, I was still working a lot, and I wanted more control of my time.

That's when I began studying automated income systems, and I got to thinking, "If I could take all that I've already learned about running a profitable business, and transfer that knowledge into an automated system that would do the work for me, wouldn't that be awesome!"

I spent the next several years of my life, and thousands of dollars of my own money, developing such a system.

You may have seen one of my automatic income systems in action, if you've been to my website at getmoldsolutions.com.

This particular system works for me 24 hours a day, 7 days a week, 365 days a year, and produces an average monthly income of \$7,000.00 to \$10,000. I've even made as much as \$17,794.33 in a single month.

□

As you can see, I made **\$17,794.33** for the month of **October 2005**.
And let me tell you, that would make most heart surgeons blush.

□

This is the bank statement for the following month.
Though it was a little slower, I still made **\$13,566.48**.

□

In just 60 minutes I installed Google AdSense on my site and now have an additional source of **Automatic Income** that pays for our family vacation each year.

□

It looks like this years family vacation is going to be a lot nicer than I'd originally anticipated.

Now I realize that you might thinking to yourself, " What!? Are you kidding me? I can't imagine anything more boring than mold. And I sure as heck don't want to do some mold project".

So before we go any further, let me tell you, I'm not here to talk about mold.

I'm here to show you a system!

And what you need to realize is this...

If I can use this system to make the kind of money I do, with a project as boring as mold, just imagine what you'll be able to do when you use it for something a little more exciting!

Now... before I show you the system, it's critical that we discuss...

Why Most Folks Fail In Their Money-Making Attempts, Why It's NOT Your Fault... And How To Make Sure It NEVER Happens Again

The most exciting thing about what I'm going to tell you right now, is that by avoiding these five critical mistakes, you'll guarantee the success of your home based business.

Here they are:

Critical Mistake #1: Most folks take advice from “pretend” experts who are happy to offer their advice, yet they've never sold a real product or service to a real person in their lives. Myself and my clients are currently using this system in 53 different home-based businesses, so everything we're discussing here is based on “reality”, not “theory”.

Critical Mistake #2: Most folks concentrate on the product or the service, rather than finding a hot market of rabid buyers, and this is completely backwards. In just a moment, I'm going to show you just how easy it is to find hot buyers for ANY product or service.

Critical Mistake #3: Most folks think they've got to have a product or service before they get started, and the fact is, nothing could be further from the truth.

Critical Mistake #4: Most folks think that starting a business takes a lot of start up capital. Now granted, typical businesses (like my cleaning and restoration company) do. But when you do things like I'm about to show you, there's no cheaper way to get into business... period!

Critical Mistake #5: Most folks don't have a tested and proven system. But now, you will!

The majority of people never make any money with their home-based business as a result of making these 5 critical mistakes.

My friend Terry's story is a perfect example.

She'd been struggling for years, in two different home-based businesses.

Oh sure, she was making a little bit of money. But it wasn't what she'd hoped for. To quote her words from a telephone conversation we once had. She said, “Kevin, I'm sick and tired of having a hobby. I want a real business that gives me real money”.

After looking at what she was doing, I saw that she was making most of the mistakes I just told you about.

I began showing her this system, and sure enough, she started making a lot more money.

And here's why... Terry finally realized that there's no pie in the sky. She discovered the secret that separates successful businesses from unsuccessful business. She simply found a system that works, and someone who was willing to take her through it, step-by-step.

So...

If you want to have a successful home-based business, you've got to have a system that's designed with the "Average Joe" in mind, and your first step is make sure there's plenty of hot prospects for your product or service.

How To Find 1,000's Of Hot Prospects Who Can't Wait To Give You Their Money

Most folks fail in their home-based business because they do things completely backwards.

They concentrate on their product or service first, not worrying about who, or how they're going to sell it... until later.

The great thing is, it's easy to find plenty of hot prospects for your product or service, when you follow this 4-step process.

The first step of the process that I'm going to show you right now begins with using a little known tool that very few people even know exists.

If you're ready to see something amazing, just click on the link in the box below. A new internet browser window will open on your computer so you don't lose your spot on this page.

[Click Here To Use The Tool](#)

Once you've got it opened, come back to this page and I'll show you how to use it.

Alright, now that you've got the tool opened, we're ready to go.

I'm about to show you how to find hot prospects for any product or service.

Let me start by giving you an example from one of my own projects.

Once you've got the tool opened, type in the words "toxic mold".

Then enter the 5 character code and hit the submit button.

The tool will bring up a list that shows you how many searches are being done on a daily basis.

As of the time I'm writing this, (looking at both columns) the tool is showing me that there are 6,414 searches being done every single day for the words "toxic mold".

Your figures may be different, depending on when you're reading this report, but you get the idea.

I discovered this tool back when I was setting up my first automatic income system, and it was a godsend. This tool allowed me to find out exactly what people were looking for on the internet.

I could see that there were more than 6,000 people who were looking for the very thing I wanted to offer... each and every day!

That's more than 180,000 searches in a month!

This got me really excited.

Let me give you a couple more examples so you can get an idea of the power of this tool.

One of my clients uses this system to do a project with scrapbooking. So type in scrapbooking and go through the process again so you can see how many searches were done.

WOW!

That's A Whole Lot of HOT Buyers!

As I write this report, it's showing 18,559 searches... every single day!

I show you this to make an important point.

As you know, I average \$7,000.00 to \$10,000.00 a month with my getmoldsolutions.com project.

Yet I just showed you that there's 3 times as many people searching for information on scrapbooking as there are searching for toxic mold.

So let me ask you...

Do you think my client might be making a little bit of money with her scrapbooking project?

You bet she is!

And while I'm at it, I'll let you in on yet another secret.

I Don't Have To Push Products On My Friends And Family

This system is better than anything else I've ever seen (and I've tried a lot of things). It doesn't require me to try and sell products to my friends and family. And because the system runs on auto-pilot and takes very little of my time, I'm able to use it for several different projects, which allows me to have multiple sources of income. Since you offer the system on a 30-day trial basis, I figured, "What do I have to lose". As soon as I received it in the mail and had a chance to go through the material, there was no way I'd even consider sending it back. You taught me how to position myself correctly, so people come to me (already wanting what I have to offer) and I don't have to "sell" my products. Thanks so much for everything!

People who are interested in scrapbooking are what I call "hyper-responsive buyers".

They buy tons of scrapbooking stuff!

Fact is, they keep coming back to buy, over, and over, and over again.

Let me give you a few more client examples:

My client who sell candles - 38,694 searches.

Terry, who sells crafts - 33,629 searches.

One of my clients, Jane May, uses the system to help brides-to-be plan their upcoming wedding. There are 673,140 of them who do searches for "weddings" every single day.

How about Pampered Chef? Did you know that 5,392 people are looking for information on Pampered Chef every day?

I have one client using the system to buy and sell real estate on the internet. There are 528,935 searches being done for "real estate" every day.

Is That Incredible, Or What?

I've got another client who uses the system to help people with different aspects of health. There are 586,816 people who are looking for information on health every day.

So... as you can see, this tool is incredibly useful. Be sure to bookmark it so you can come back later and have some fun using it to find hot buyers for your own ideas and projects.

And when you do, remember that there are 3 more steps to this simple process.

Here they are:

Step #2: Be sure to ask yourself, "Will these people buy repeatedly"? This is very important, and I'll tell you why in just a moment.

Step #3: Find out what they already want - and give it to them. This is why my mold project has been so successful. I found that people were looking for information on mold and how to get rid of it. By giving them exactly what they want, I'm able to automatically make a minimum of \$7,000.00 to \$10,000.00 every single month.

Step #4: Find the traffic flow, then plunk a website right down the middle of it. You'll have instant traffic and you'll be making money... almost overnight!

I Almost Wet My Pants!

I've been searching for a business that I could do from home. Over the last several months an idea has been grinding in my head. I've been pushing it away, but you brought it to life! I did a little research, just like you taught me, and was amazed. 85,346 people did searches last month for exactly what I want to offer. I almost wet my pants! I've always loved helping people. I think maybe this is God's plan. And it took you to open that door! Thanks, so much..... I don't know where I'd be without GOD and sharing people like you! GOD Bless YOU!

Tracy Crofutt - Dublin, TX

At this point I need to share a somewhat embarrassing personal story with you, because it will help you avoid the one major mistake I made with my first automatic income system.

Though many people consider my mold project to be incredibly boring, the fact is, it still makes me \$7,000.00 to \$10,000.00 a month.

That simply wouldn't be possible without a system.

The system allows me to make a lot of money in spite of myself.. and in spite of all the mistakes I've made along the way.

The biggest mistake I ever made, was not realizing that I couldn't make repeat sales with the getmoldsolutions.com project.

You see, once I solve my client's mold problem, then they're done with me.

And who can blame them?

But knowing what I know now, I'm already using the system for new projects, where I can make repeat sales to my happy clients.

You'll be amazed at how profitable this is. Once you've made the initial sale to a client, and they're happy with it, they'll continue to come back and by from you over, and over, and over again.

They'll tell their friends, family and co-workers about you too.

With that said... let's move on to the next part of the system.

Now that we found hot buyers for your product or service, and we've got them flocking to you.

Our next step is to get them into what I call your "marketing funnel".

And the great thing is... this entire process is completely automated.

So let's move on to...

How To Automatically Convert Prospects To Money In The Bank

I teach my consulting clients a specific 7-Step process for converting prospects to money in the bank. The first step is what I call the "automated marketing funnel".

Let me show you the 5 components of the "automated marketing funnel", so you can see how it works.

Automated Marketing Funnel - Component 1:

Give your prospects something of value in exchange for their name and e-mail address. Because here's the deal... your whole goal in using this system is to build an opt-in list, that you can continue to stay in touch with.

You may have tried this strategy in the past, with dismal results.

And if that's the case, you'll understand why in just a moment.

But keep in mind you must offer your prospects something of value, in return for them giving you their name and email address.

For my mold project I offer them a free report. As soon as they've entered their name and e-mail address the report is automatically delivered to them.

In fact... 29.7% of the visitors who come to my site request the free report, and rest assured, this makes me a very happy person.

The report contains information they want, and they're willing to give me their name and e-mail address in exchange for it.

Automated Marketing Funnel - Component 2:

Immediately give these opt-ins (report subscribers) an additional offer in exchange for their full contact information.

Now why would you do that?

The answer brings me to...

Thank God I Didn't Give Up

I have had a home-based business for several years and just in the last few months I debated about shutting it all down because I spend more money on it than I make with it. You've given me the hope and inspiration to keep it going. I have always known that people were interested in what I have to offer... but can't seem to get them to respond. Like you, I have attended dozens of teleseminars, downloaded books, listened to CD's, spent lots of \$\$\$, and I still wasn't making money. I'm so glad I met you because you keep it simple and explain things so the average person can understand. And I love all the support I get from the Mastery Group.

Automated Marketing Funnel - Component 3:

By doing so, it automatically sections your list and let's you know who your hyper responsive prospects are.

Let me ask you... which is a more valuable or hyper responsive prospect, the one who just gave you their name and e-mail address, or the one who just gave you their name, e-mail address, mailing address, phone number, and full contact information?

The one who gave you full contact information is obviously the more hyper responsive and more valuable prospect.

And your system has automatically let you know who these prospects are, with NO effort on your part.

Automated Marketing Funnel - Component 4:

Continue to stay in touch with your prospects on a regular basis, offering additional buying opportunities.

This is done via e-mail.

Now, I can already hear the wheels spinning in your head.

You might be thinking, "Wait a minute Kevin. I've done that e-mail thing before, and with all the spam these days, email doesn't work for me."

I'm going to be blunt with you. There are a lot of folks trying to use e-mail, and the reason they're having such dismal results, is because they don't have a clue what they're doing.

Which brings me to...

Automated Marketing Funnel - Component 5:

Give your prospects and subscribers what they want... and don't be boring.

With my getmoldsolutions.com project, I send an email to my subscribers once a week, talking to them about mold.

Yes, you heard me right - once a week.

But Here's The Secret...

I have 7 different strategies for structuring emails.

This allows me keep them not only informative, but entertaining as well. And the fact is, after several years of using this system, my clients and subscribers still look forward to reading my correspondence.

In fact, every once in awhile I get an email from a subscriber who has inadvertently blocked my emails by installing a spam filter, and they actually get upset, thinking that I removed them from my mailing list.

So let me assure you, if I can use this system to make my emails (about mold) entertaining enough, so that my subscribers and clients enjoy getting them, enjoy reading them, and can't wait to hear from me the following week, just so they can find out what I'm going to say next, then trust me, it will be easy for you to do the same, especially when you've got something a little bit more exciting to talk about than mold.

Here's a story that will help you understand this concept.

I recently did a consultation with one of my clients who was having a real challenge.

She had a website for her home-based business, and while she'd done a great job in some areas, she'd also dropped the ball in a few key areas.

She was getting prospects to her site, and she was even getting them to opt into her list. She obviously had a few pieces of the puzzle figured out, yet she wasn't making any sales.

And I mean none!

After speaking with her on the phone for just a few minutes, I knew exactly what the problem was. She wasn't giving her prospects what they wanted.

Dawn and I spent 35 minutes fine-tuning her system, and within two days she was averaging \$79 a day.

I'm Finally Making Money, And I Owe It All To You

I'd been struggling for months, trying to make money with my home-based business (all to no avail). I was almost ready to give up when I heard about your system. Who would've thought that a half hour phone call would prove to be so valuable. I'm finally making money and I owe it all to you. Thanks Kevin!

Dawn Emory - Boise, ID

Now you might not think that's a lot of money, but let me point out, it's more than \$2300 a month, and that's not too shabby for 35 minutes worth of work.

And the best part is the fact that her system is completely automated... and takes virtually no effort on her part. Like my own system, it runs by itself.

Now Dawn's getting ready to offer additional products to her subscribers so she can reach her goal of making \$5000.00 a month.

And at the rate she's going, you can bet she'll make it happen.

So...

Let's assume for the sake of our conversation today that we've got two things figured out.

First, we've found hot buyers for our product or service and now we've got them flocking to us.

Second, we've plugged them into our 'automated marketing funnel' and now we're starting to make some pretty good money.

Now it's time to give them more of what they came to us for in the first place, which brings us to the next step of the system.

How To Make \$5,000.00 to \$10,000.00 A Month... Automatically

Now you've had a taste of automatic income. You're automatically attracting hot buyers who are ready to do business with you and you've done it with virtually no effort on your part.

That's called a system and it's an incredible thing.

A system gives you reliable, consistent and predictable income.

It means you've figured something out, you've got it working, and now it automatically deposits money directly into your bank account.

Now it's time to step on the gas and get your system running at full speed.

I'm now going to show you how the system will give you \$5,000 to \$10,000 a month... with virtually no effort on your part... without risking a penny of your own money.

There are fifteen ways to make it happen. Let me show you the top three right now.

1. Ask your previous buyers and prospects what else they want from you.

If they've already bought from you once and they were happy with their purchase, then they're going to want to buy from you again. And rest assured, they'll be more than happy to tell you what else they want.

2. Offer them additional products and services based on the feedback they give you.

But, here's the secret.

You're not going to spend a penny of your money, or waste a minute of your time coming up with the next product, until...

You give your current subscribers a pre-publication offer.

Here's how it works:

After you've got feedback from your subscribers, telling you what else they want, you then ask yourself, "Is this something I can offer"?

If it is, you quickly put together a "pre-publication offer" email, which can be done in about 5 minutes.

Let your subscribers know that you've listened to their feedback and you're going to give them exactly what they want.

And even better, you're going to give them a special pre-publication offer for the product.

You'll be accepting orders for the product right now, even though it won't be ready for shipment for several weeks. And that's just fine, because you've let everyone know that this is a pre-publication offer

This gives you time to put the product together, yet allows you to make sales right away.

When you start receiving orders, it lets you know that you've hit the nail on the head, and you're giving them exactly what they want.

And...

You've done it with no financial risk and none of your time invested (other than the 5 minutes it took to write the email).

Now you're able to put the product together, knowing that it's a winner, because you've already got orders coming in for it.

In many cases, you won't even have to put a product together at all.

This brings us to the third strategy.

3. Do joint ventures with other businesses who offer similar products and services.

I do this with my getmoldsolutions.com project.

After finding that my subscribers wanted me to offer various products, such as cleaning products, vacuums and air treatment systems, I simply contacted other businesses who could help me.

Here's how the conversation went...

"Hello Mr. Johnson, this is Kevin Thompson and I own the website at getmoldsolutions.com. I currently have 14,789 subscribers who have been asking if I could provide them a vacuum like yours. Would it be alright if I make your product available to them?"

And let me tell you, by the end of the conversation, Mr. Johnson is bending over backwards, ready to do anything I ask of him.

I currently have 5 such arrangements for the getmoldsolutions.com project, and trust me, it wasn't hard for me to find joint venture partners who were chomping at the bit to work with me.

But here's the best part...

When You Set Up A Partnership Like This, You're The One Calling The Shots

You're the one in control, and that's the very position you want to be in.

Here's how I structure my partnerships:

I require all my joint venture partners stock all product and fulfill all order shipment for me.

This means that I have absolutely none of my own money tied up in inventory.

In fact, when a customer places an order for the product on my website, and email automatically gets forwarded to the joint venture partner.

They then ship the product to my customer without me having to lift a finger.

This allows me to make sales, and get the order shipped to my customer, even when I'm out of town or on vacation.

I've got several clients who do the same thing.

Let me tell you about one in particular.

Jane May has been a client for nine months now.

She's an artist who produces unique hand-painted wedding invitations, and she started using the system because she wanted to sell more of her invitations.

At least that's how things started.

But, what actually transpired is quite different.

When I met Jane, she had a website for her business, but she wasn't getting traffic.

I Knew This Strategy Would Make Her A Fortune!

I explained that she needed to start building an opt-in subscriber list (as I've already told you about in this report).

During a phone consultation, I told her, "Jane, most of these brides aren't going to buy from you on their first visit to your site, and right now, that's what you're counting on.

Why don't you offer them a free report titled, "How To Plan the Perfect Wedding That Will Have Your Family And Friends Talking For Years.

Every bride wants that. They want to have the wedding that's going to make all their friends and family jealous and get them talking about what a great wedding it was".

So, Jane puts the report together, and she starts building an opt-in subscriber list.

By doing so, she's giving the brides-to-be valuable information that they want, in exchange for their name and email address.

Now, here's the deal.

Yes, Jane's selling a lot more of her wedding invitations, but more importantly, she's starting to see the big picture.

In addition to her wedding invitations, she can now offer additional products and services for her brides.

She can easily set up joint venture relationships with florists, caterers, photographers, wedding planners, jewelry stores, travel agents, etc.

Truth is, she's got an endless supply of businesses who will be chomping at the bit, begging to have Jane promote their products and services to her subscriber list of brides to be.

And each time a sale is made, Jane gets paid a commission.

But that's not all.

Who's to say that Jane's relationship with all these brides-to-be has to end when they get married? That would be crazy.

Jane will continue to maintain her relationship with these ladies, long after their wedding day. Providing them with tips, information and product recommendations on subjects such as gardening, interior decorating, parenting, home computing, etc.

Once again, Jane's joint venture opportunities are endless.

All Jane has to do is "automatically" build her subscriber list, then continue to stay in touch with them. In doing so she'll build a long-lasting relationship with these women.

And each time she offers them a recommendation for a product or service, many of them will come back and buy again, and again, and again, because they've come to trust Jane and rely on her advice.

When compared to Jane's original goal of selling a few more wedding invitations, the big picture looks a whole lot better, doesn't it.

I Already Have More Than 200 Subscribers

Wow Kevin, thanks for the incredible system. It works just like you promised. I put my "squeeze page" together and I already have more than 200 brides on my subscriber list. And now, it just continues to grow with absolutely no effort on my part. I'm having a lot of fun with this project and am looking forward to building a relationship with these ladies. Who ever thought that making money could be so

So...

Now, your automatic income system puts \$5,000.00 to \$10,000.00 a month into your bank account.

Let's take a look and see how your life has changed.

This Is What An Automatic Income System Will Do For You

The great thing about automated business is the fact that it allows you to have a passive income rather than physically working for income, and that's the key to creating wealth and lifestyle.

Here are the 5 HUGE benefits of using an Automatic Income System:

1. You Only Do The Work Once, yet you get paid forever... or you can use someone else's system and you don't have to do the work at all.

2. It Creates Income Automatically, in fact, I now work less than three hours a month on my getmoldsolutions.com project, yet I average \$7,000.00 to \$10,000.00 a month for my efforts. That's not too shabby.

3. It Gives You Complete Control of your time because your presence isn't required.

4. It Relieves Stress because you can forget about it. I like travel a lot (for pleasure and for business). No matter what I'm doing with my time, my system keeps on working for me.

Before I had a system, if I went on vacation, I'd come home with less money than I had when I left.

But now, when I go on vacation - I come home with more money than I did when I left, because my system is ALWAYS working for me.

5. It Gives You Instant Pay Raises. Not too long ago I made one small change to my system that gave me an instant \$3,401.89 pay raise for the month. I've now automated this strategy and it continues to be a critical part of my system to this day.

In fact, it continues to give me a minimum of \$3,400.00 in income, every single month, which is more than \$40,000.00 a year. Now that's a nice pay raise!

I've now been showing my clients how to use the "Automatic Income Payday Tool" and they're having great results with it as well.

Now, I realize that I've been ranting and raving about the importance of having a system, and there's a very good reason for it.

As I mentioned before, even though my cleaning and restoration business became extremely profitable, I still found myself working 10-14 hours a day.

In order for that business to run efficiently, it required a lot of my own time and effort.

But I finally figured out what I was doing wrong.

Here's how it happened...

You're The "Real Deal"

When you go to the internet these days, you can find thousands of people who are offering how-to-make-money information, and it's hard to tell the scam artists from the "real deal". Because I'd already known you for several years (and watched you grow your own profitable home-based business), I knew you were more than qualified to show me how to do the same. And the fact that you removed all the risk with your 30-Day Trial Offer, made it a no-brainer decision for me to jump at the chance to get involved. Thanks for everything Kevin, I wouldn't be where I am today if it wasn't for all your help.

How I Discovered The Automatic Income Secret

Back in 2001 I met this guy Chet at a seminar I attended in Phoenix.

The two of us had a lot in common and we became friends right away.

As it turns out Chet owned a very profitable business in Tampa, Florida, and invited me to come down for a week so I could get some ideas for my own business.

When I made arrangements to take him up on his offer, little did I know how this trip would change my life forever.

When I arrived at the airport, Chet picked me up in his brand new Lexus.

We headed over to his home, which is on Lake Armistad, in Tampa.

When we arrived at his home, I couldn't believe my eyes.

He had this incredible house, right on the lake. It was the kind of home you see on that Lifestyles Of The Rich & Famous show.

He had a boat, jet skis, swimming pool in the back yard, hot tub, pool table and his home was immaculately furnished. As we spent the day relaxing, the whole time I'm thinking to myself, "I sure could get used to this kind of lifestyle".

The next morning Chet says, "Hey, why don't we head over to my condo on Clearwater Beach for the day?"

"Sounds great to me", I said.

As we're driving over to Chet's condo, I'm thinking it was just some little vacation place he had. After all, property on Clearwater Beach ain't cheap.

Was I Ever In For A Surprise!

Chet actually owned a million dollar condo right on Clearwater Beach, and let me tell you, it was incredible.

Truth is, I'd never seen anything like it in my life.

Me and Chet, relaxing at his Clearwater Beach condo.
He'd just taught me the secret of **Automatic Income**

As you can imagine, I'm wondering how in the heck Chet affords all this stuff.

And there was one other thing that had me curious. I was down there for a whole week spending time with him, and not once did he go to work.

I couldn't stand it any longer, so I had to ask...

"Chet, how do you do this? You don't go to work, you've got this beautiful house, you've got this incredible condo on Clearwater Beach, how in the heck do you do it?"

He says, "Well Kevin, I've got systems put in place that do all the work for me.

And the truth is, without those systems, there's no way I'd be able to live a lifestyle like this.

In fact, that's why I invited you down here in the first place.

I wanted to show you what's possible when you start using systems. You too need to get systems put together for your own business".

From that day forward, Chet kept preaching to me about system, system, system and he wouldn't let up.

He drilled this into my head, and now I understand why.

It was because he cared.

And now..

I'm paying it forward and doing the same for you, so you too can have this kind of lifestyle.

When You Begin Using A System, Your Life Will Be Forever Changed

When I look back at where I was in 2001, and compare it to where I'm at now, the lifestyle I live, the income I make, the minimal hours I work, I realize it's only possible because I've put systems in place that do the work for me.

In fact, my systems are now so profitable, that I was able to sell my cleaning and restoration business on April 19, 2004, and retire from manual labor... FOREVER!

I know I've covered a lot of information, yet I realize there's no way I can tell you everything I know in this report.

I know you want more help, and that's why I've prepared a special offer, so you too can have your own automatic income system.

But...

Before I go on, I need to let you know.

If you're looking for some pie in the sky, sit at your computer for 15 minutes and make a million this year by doing nothing else, then what I'm about to tell you, isn't worth your time.

Because quite honestly, those things aren't real and they don't work. All they're good for is taking money from people who have that kind of dream.

On the other hand...

If you're interested in having a very real, reliable and predictable \$5,000.00 to 10,000.00 in extra income every month from an automated system that doesn't require you to do manual labor, where you really can sit at home in your chair and see the deposits being made, then what I'm about to give you is the exact system to accomplish those goals.

In addition, I'm going to do something that no one else has ever done. I won't just guarantee your satisfaction with this system, because that's not what's important.

I'll Guarantee Your Results!

That's right!

I'll ride with you and guarantee the specific number of dollars that will appear in your bank account in a specific period of time as the result of using this system, with you as the sole judge and jury, and if it doesn't happen, I'll be the one who pays the consequences.

In addition, I'm going to let you take the entire system... For a 365-Day Trial!

And trust me...

There's no way I'd make a guarantee (or an offer) like this, unless I knew for sure that this system will make money for you, just like it does for the rest of my clients.

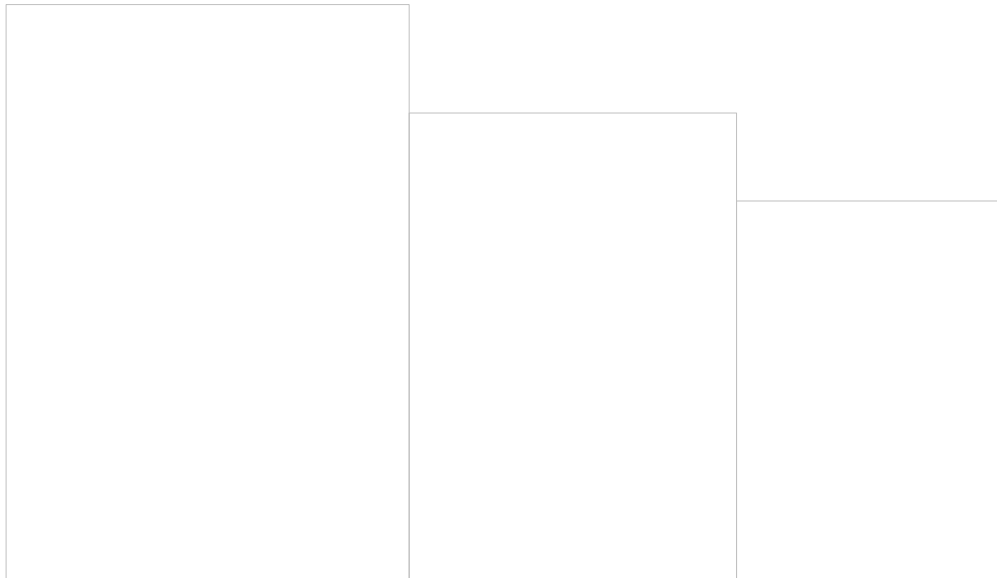

But here's the deal:

I obviously can **NOT** afford to make this offer to everyone who was on the teleseminar.

My time is extremely valuable. And because I provide my clients such a considerable amount of ongoing support and assistance, it forces me to be extremely selective in who I offer the system to.

Since I'm including the two months of personal coaching (and I've got to be fair to my current clients) I can only accept 7 requests for this **365-Day Trial**.
